

Policy – Rail

Title: Medical Standards

Medical Examinations are carried out in accordance with Network Rail's requirements.

All medical examinations shall be carried out by RISQS approved occupational health practitioner. Any Medical examination is to be accompanied with an alcohol and drug test as outlined in NR/L1/OHS/051.

Certification of medical fitness

Certification is issued by the practitioner and filed in the relevant personal file. The details are also entered onto the staff database.

Identification of limitations as applicable

Any limitations are identified on the certificate and entered onto the staff database. This could include hearing or vision defects or the need to be accompanied.

Expiry date with regard to age

Medical certificate age related expiry dates are in accordance with Network Rail's requirements. The expiry date is entered onto the staff database and can also be found on the individual's Sentinel Card.

The staff database is used as an advanced notification system which indicates when medical certification is due to expire.

Glasses/contact lens wearers

Records of those members of staff who wear glasses/contact lenses are maintained in the personal files.

Glasses/contact lens wearers briefing

All staff are issued with an internal memorandum on the requirement for contact lens wearers to carry spectacles at all times when on site. They are required to return a signed copy of this to the Rail Administrator as an acknowledgement that they have understood, and will comply with, the policy. The returned copy is filed in the personal files. Checks are also made during personnel audits by senior members of staff, details of which are recorded.

Laser Eye Surgery

Any sponsored staff that have undertaken laser eye surgery should advise Matchtech .

Records

The Rail Administrator shall compile, update and file all records. The Rail Administrator shall also arrange medical re-certifications when they are due (as indicated by the advance expiry system incorporated into the staff database).

Failure of medical examination

Should any worker or member of staff fail a medical examination, Matchtech will withdraw the individual's competency certification and inform Sentinel through the established procedures.

Defective colour vision

Defective colour vision will restrict the safety certification which can be held to; as per Network Rail Company Standard NR/L2/OHS/00124.

Notification to COSS

Any restriction or impediment must be notified by any individual to the COSS before work commences.
