Local Testimonial

	<p>Senitor Associates first contacted us with a number of possible candidates for a role we were advertising through other agencies. The quality of the candidates received was much better than the other agencies were providing, and the personal level of service provided by their consultants was great. Since the initial engagement we have worked with Senitor for 3 different roles. They have been able to place candidates in all 3 roles; primarily due to the way they are able to understand the requirements of the role much better than other agencies. We will continue to use Senitor for any other recruitment needs, and I expect they will be able to provide exactly what I would be looking for, time after time.</p>
